

# Grazing Management and Animal Health Field Day

Poor animal health can have a significant impact on the profitability of your sheep enterprise.

Good grazing management will improve feed utilisation and allow higher stocking rates whilst also conserving ground cover.

SheepConnect SA Focus Farm, Nick Correll will be showing the vetch he has sown this year to rotationally graze weaned lambs on.

Landmark Animal Production Specialist, Daniel Schuppan will also demonstrate how to calculate a feed budget to ensure stocking rates match feed availability.

**When:** Wednesday 15<sup>th</sup> August  
**Where:** SheepConnect SA Focus Farm  
Nick Correll's Property- Piringa  
Sandpit Rd, Kulpara  
(3-4 Km North of Kulpara on Bute Rd)  
**Time:** 9am -1pm

*Free BBQ lunch supplied by Landmark*
